

[NAAFA received this in January 2013. Another agent wins by using the SECA Kit.]

NAAFA, I got an answer from IRS. Apparently they have closed the file and no tax is due. Needless to say I am tickled about that. Too bad they can't change their mind and correct their opinion on this whole thing so we don't have to piddle around with this thing every year. I presume we have tried to get them to forget the whole thing, if not we should remind them to do so. Thanks for your help.

I will attempt to send you a copy of the letter. Let me know if it does or doesn't get through. I am definitely not a computer whiz!!!!!!!!!!!!!!!!!!!!!!!!!!!!
