**Subject: wrongfully terminated**

**I am one of those agents here in the NEW state of Georgia! I filed Ethics complaints against another agent (for breaking the law and violating Amfam Code of Ethics), my District Manager, my State Sales Director and the Regional VP. I had been following the stated company policy of reporting unethical or illegal practices for over a year. Nothing was ever done by management. The response I was told (nothing was provided in writing) was that my production was not sufficient to warrant believing my complaints. I was then terminated.**

**Warmest regards,**
